BETHSAIDA CHILDRENS HOME DONATIONS

In Kenya, Feeding the Children works in both urban and rural settings throughout 2 counties, Nairobi & Kajiado. We implement activities in our Child-Focused Community Development program areas. This includes meeting immediate and long-term needs of caregivers and their children in areas of

food and nutrition, education, and livelihoods. We use this programmatic approach to meet the needs of each individual in the community we serve.

We partner with Churches, organizations and individuals to provide nutritious meal and school learning materials. So far 120 children have benefited from our food donation and the learning materials program encouraging the students to attend school each day and help them stay focused on their studies.
