OCTOBER REPORT 2020

INTRODUCTION.

Bridges of Hope and Empowerment

is in embracing, equipping and empowering the most vulnerable children and youth in society through education and training programs.

We continue to restore hope and positive transformation in many lives by initiating programs that lead to a conducive learning environment to the children and self sustainability to the youth and families, thus reducing dependency.

BOHEI has been able to offer learning scholarships to various individuals in primary schools, high schools and universities. Gardening projects , mentorship and the supply of learning materials are an major part of our programs.

FEEDING THE HUNGRY DUE T0 COVID-19

Bridges of Hope and Empowerment continues to feed the most vulnerable and hungry families and orphaned children in Kahawa West during this time when the world is challenged by the Covid –19 pandemic. Many are challenged daily with finding enough food to survive, food including impoverished areas such as Kamae Slum & Soweto. Bethsaida Children Home has also been the beneficially of food donations

Food donation to Bethsaida Children

We thank our donors who see our needs and continue to help us feed, educate and empower children to grow vegetables and learn how to feed families and their communities. The many ways you give go a long way in helping us continue to make a lasting impact in Kenya.

COVID-19 AWARENESS IN KAHAWA WEST

Community awareness at the chief's camp

Awareness through art by the Kahawa West youth in partnership with BOHEI

Distribution of Jericans for hand washing locations

Bridges of Hope and Empowerment has been in the fore-front in fighting the deadly disease of Covid-19 in partner-ship with the Kahawa West government administration. Both teams have been emphasizing safety measures to curb the spread of the virus emphasizing key points;

Taming this deadly pandemic starts with everyone on an individual level. Adhering to safety measures given by health experts will go a long way in reducing the spread of the Covid-19 disease .

Washing your hands with soap and water for at least 20 seconds, keeping a distance of at least one meter from any person, coughing and sneezing into a tissue or one's elbow and sanitizing often.

Practicing the measures recommended to contain the virus including staying at home unless you absolutely have to go out. This is the only way to ensure the pandemic or igno-rance to it does not wipe out the whole population in the worst-case scenario.

The results of education and training have been remarka-ble and every member of the community has taken the ini-
